## **Statement on Compliance of the WEEE and RoHS Directives**

**WEEE Directive (Directive 2002/96/EC dated 1/27/03)**

**Environment Agency Product Registration Number : WEE/JH0003ZR**

The **Waste of Electrical and Electronic Equipment** directive has been introduced to minimise the quantity of electronic equipment entering the landfill waste stream and to ensure the proper disposal of such equipment. Chell Instruments complies with this directive and will accept the return of any equipment sold by ourselves after August 13<sup>th</sup> 2005. When equipment that is sold on a business to business basis, the obligations under the WEEE directive is transferred to the purchaser. This is stated in our terms and conditions.

To return product, please contact Chell at [info@chell.co.uk](mailto:info@chell.co.uk) for a RMA number. Return shipments are the responsibility of the customer. We regret that we cannot accept any goods that have been contaminated with hazardous substances and therefore cannot fulfil our obligations under the COSHH regulations.

**RoHS (2002/95/EC dated 1/27/03)**

The **Restriction of Hazardous Substances** directive is aimed restricting or eliminating the use of lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls, or polybrominated diphenyl ethers in electrical and electronic equipment. Chell Instruments, together with our suppliers will make every effort to remove these substances from our products but currently our products fall under the category of "Monitoring and Control Instruments" and as such are not included in the directive.
