

Pressure Fittings

Chell provide a range of pressure fittings in the 0.040" and 0.063" (1.0 and 1.5mm) range to accompany the ESP pressure scanners

Chell supply and carry a UK stock of a number of miniature pressure fittings which complement the Pressure Systems ESP scanners. These included T pieces, cross pieces, straight connectors, reducers, steel tubulations and manifolds. We also supply tubing, tubing springs and tubing pliers. The springs locate the tube by compressing it on the fitting side of the bulged tubulation. The tubing pliers make fitting the tube to the tubulations much easier.

Description	Part Number	Price
T piece 0.040' (1.0mm)	CNNT-0101	£8.29
T piece 0.063' (1.5mm)	CNNT-0201	£8.29
T piece 0.125' (3.2mm)	CNNT-0301	£11.75
Cross piece 0.040' (1.0mm)	CNNC-0101	£8.29
Cross piece 0.063' (1.5mm)	CNNC-0201	£8.29
Cross piece 0.125' (3.2mm)	CNNC-0301	£11.75
Straight connector 0.040' (1.0mm)	CNNS-0101	£8.29
Straight connector 0.063' (1.5mm)	CNNS-0201	£8.29
Straight connector 0.125' (3.2mm)	CNNS-0301	£11.75

Description	Part Number	Price
Reducer 0.063' to 0.040' (1.5 to 1.0mm)	RDCR-0101	£8.29
Reducer 0.125' to 0.040' (3.2 to 1.0mm)	RDCR-0201	£10.03
Reducer 0.125' to 0.063' (3.2 to 1.5mm)	RDCR-0301	£10.03
Tubulation 0.040' x 0.55' (1.0 x 14mm)	27-07-B550	£1.89
Tubulation 0.063' x 0.55' (1.5 x 14mm)	27-06-B550	£1.89

Description	Part Number	Price
Spring 0.040' (1.0mm)	12-90-2540	£0.41
Spring 0.063' (1.5mm)	12-90-2562	£0.41
Spring 0.125' (3.2mm)	12-90-25170	£3.15

Description	Part Number	Price
Manifold, single row, 0.040' (1.0mm) tubes	MC40-0101XX	£POA
Manifold, single row, 0.063' (1.5mm) tubes	MC63-0101XX	£POA
Manifold, dual row, 0.040' (1.0mm) tubes	MC40-0201XX	£POA
Manifold, dual row, 0.063' (1.5mm) tubes	MC63-0201XX	£POA

XX is equal to the number of tubes from 1 to 16 on a single row manifold and 2 to 32 on a dual row. Please add £1.60 per additional tube.

Description	Part Number	Price
Translucent thin walled Nylon tubing 0.040' (1.0mm)	TUB-040	£308.11 per 300m
Translucent thin walled Nylon tubing 0.063' (1.5mm)	TUB-063	£166.10 per 150m
Translucent thin walled polyuretane tubing 0.040' (1.0mm)	TUB-040P	£189.77 per 300m
Translucent thin walled polyuretane tubing 0.063' (1.5mm)	TUB-063P	£169.77 per 300m
Tubing pliers	STP2	£126.66

Instruments

Quick Disconnects

Chell also supply the Pressure Systems range of quick-disconnects. These allow the removal and reconnection of an number of pressure ports with a single fitting. They are available in rectangular and circular form and also with mating blanks. For further information on the circular quick-disconnects please see the data sheet on the Chell web site.

Rectangular Quick Disconnects QDCS

The rectangular quick-disconnect (QDCS) consists of two plates that are bolted together with a captive 'o' ring seal between them. They are available in 20, 36 and 52 port configurations:

Description	Complete	One half Only
20 port rectangular quick-disconnect	£390.85	£268.67
36 port rectangular quick-disconnect	£469.84	£288.39
52 port rectangular quick-disconnect	£552.68	£351.50

The part number of the QDCS is QDCS- AA BB CC where:

AA is equal to the tubing on the female side, that is the side without 'o' rings
 AA = 00 for no female half supplied
 AA = 01 for 0.040' (1.0mm) tubes
 AA = 02 for 0.063' (1.5mm) tubes
 AA = 03 for a blank female half

CC is equal to the number of tubes on each side of the QDCS
 CC = 01 for 20 tubes
 CC = 02 for 36 tubes
 CC = 03 for 52 tubes

BB is equal to the tubing on the male side, that is the side with 'o' rings
 BB = 00 for no male half supplied
 BB = 01 for 0.040' (1.0mm) tubes
 BB = 02 for 0.063' (1.5mm) tubes
 BB = 03 for a blank male half

For example, the part number for a 52 port QDCS with 0.040' tubulations on the female half and 0.063' tubulations on the male half would be QDCS-010203

Circular Quick Disconnects QDCC

The circular quick-disconnect consists of a bulkhead fitting (female) and a screw on male half. The bulkhead fitting contains the captive 'o' rings and they are available in 19, 37, 55 and 72 port versions.

The part number of the QDCC is QDCC- AA BB CC where:

AA is equal to the tubing on the female (bulk-head) side, that is the side with 'o' rings
 AA = 00 for no female half supplied
 AA = 01 for 0.040' (1.0mm) tubes
 AA = 02 for 0.063' (1.5mm) tubes
 AA = 03 for a blank female half

CC is equal to the number of tubes on each side of the QDCC
 CC = 01 for 19 tubes
 CC = 02 for 37 tubes
 CC = 03 for 55 tubes
 CC = 04 for 72 ports

BB is equal to the tubing on the male side, that is the side without 'o' rings
 BB = 00 for no male half supplied
 BB = 01 for 0.040' (1.0mm) tubes
 BB = 02 for 0.063' (1.5mm) tubes
 BB = 03 for a blank male half

Description	Complete Unit	One half Only
19 port circular quick-disconnect	£422.51	£284.44
37 port circular quick-disconnect	£690.75	£438.29
55 port circular quick-disconnect	£730.19	£458.01
72 port circular quick-disconnect	£835.79	£532.16
